ALLIES BRING UP BIG GUNS

DISTRICTS OCCUPIED BY GERMANS ARE SHELLED HEAVILY
OBSTINATE RESISTANCE
CAUSES ALLIES TO LOSE

(By Associated Press)
LONDON, July 26.—On all sides of the German salient the allies are reported continuing to make progress except on the heights beyond Soissons. German resistance to the French pressure has been very de-

termined on this latter sector. Advances reported elsewhere are for the most part slight. On the other side of the salient just west of Rheims the allies lost the town of Mory and Hill 204 to a German counter attack, but retained Virgny and the greater part of the line

thereabouts looking toward Plumes. The allies on this sector hold Marfaux, Bouilly, Steuppraise and Courton wood. Between the Ourcq and Chateau Thierry the Franco-American line now shows an advance beyond the line of a week ago from six to eight miles.

HARP FORWARD MOVE OF
ALLIES MAY CAUSE
COLLAPSE

(By Associated Press)
WITH THE FRENCH ARMY IN FRANCE, July 26 (Morning).—The entire German position within the Marne salient is such that it may fall any instant as a result of some sharp forward move by the allies affecting a vital part. It is for this reason the German commanders ordered their men to hold on at all costs while a defensive is prepared upon which the German armies can fall back.

Day after day, the allies, now the French, now the Americans, now the British are encroaching upon the triangular salient, at some places making deep dents in enemy positions, at others progressing more slowly. Every line of communication with the German salient is under bombardment night and day, either from allied artillery or airplanes. Enemy troops are suffering terrible privations owing to the uncertainty of obtaining supplies. Since the allies control virtually every road and path, fatigued German units cannot be relieved.

PRESIDENT WILSON
DENOUNCES MOB LAW

(By Associated Press)
WASHINGTON, July 26.—President Wilson today in a personal statement addressed to his fellow countrymen, denouncing mob spirit and mob action, called upon the nation to show the world that while it fights for democracy on foreign fields it is not destroying democracy at home.

The president denounced most emphatically mob action of all sorts, especially lynchings and while he did not refer specifically to lynching of negroes in the south, it is known that he included them in his characterization of mob spirit as "a blow at the heart of ordered law and humane justice."

The president's statement in full follows:

"My fellow countrymen:
"I take the liberty of addressing you upon a subject which so vitally affects the honor of the nation and the very character and integrity of our institutions that I trust you will think me justified in speaking very plainly about.

"I allude to the mob spirit which has recently here and there very frequently shown its head amongst us, not in any single region, but in many and widely separated parts of the country. There have been many lynchings and every one of them has been a blow at the heart of ordered law and humane justice. No man who loves America, no man who really cares for her fame and honor and character or who is truly loyal to her institutions, can justify mob action while the courts of justice are open and the governments of the states and the nation are ready and able to do their duty.

"We are at this very moment fighting lawless passion. Germany has outlawed herself among the nations because she has disregarded the sacred obligations of law and has made lynchings of her armies. Lynchers emulate her disgraceful example. I, for my part, am anxious to see every community in America rise above that level, with pride and a fixed resolution which no man or set of men can afford to despise.

"We proudly claim to be the champions of democracy. If we really are, in deed and in truth, let us see to it that we do not

SCALPED BY FALL
OF ROCK IN MINE

Thomas Fullerton, employed in the Belmont, was caught by a cave-in yesterday and sustained a fearful laceration of the scalp, the entire scalp being stripped from the base of the brain to the top of the forehead. The chest also was hurt but at last accounts the patient was improving and the doctors think he has a good chance for recovery. Mr. Fullerton is one of the oldest employees of the company in point of years and has the reputation of being a careful workman.

tions early today are that the enemy is making preparations for a further withdrawal. They have been endeavoring to hold the northern half of the Fere and Ris forests, but the allies are making progress in the work of ousting him from the remainder of these woods.

The Germans have been using much "arsene" gas but ineffectively. The poplar and oak forests at Fere and Ris are filled with underbrush and the allies are having a stiff time to get through but are continuing to push night and day. German machine gunners and artillery are desperately contending for every inch of ground before giving it up. This morning the battle in the woods is still in progress.

The allied armies moved up their heaviest guns early in the day and were throwing shells into the German lines as far as Saponay (five and a half miles northeast of Oulchy le Chateau), and beyond Fere on Tardenois, two miles southeast of Saponay. Districts to the south also are being peppered by allied shells.

The Germans are using high explosives, mixed with gas shells. The Americans estimate that 40 per cent of the German shells which fell Thursday night and today contained gas. German machine gun nests are numerous in the forests but the allies are gradually tearing them to pieces with heavy shells. Bombardment of the German lines continues mercilessly.

2 p. m.—Franco-American troops on the front northeast of Chateau Thierry moved their lines forward today. The allies along the front to the east likewise made progress at places. The Americans at one point attained an objective a kilometer distant. Clinging desperately to the hills and woods the Germans are using machine guns, artillery and air forces. Quantities of gas hamper the allied advance.
